

New Employee Onboarding Policy:

Device Configuration/Provisioning Standards:

- The IT Department will provide each New Employee with a company-approved device.
- All devices will be pre-configured following the company's device configuration and provisioning standards, ensuring consistency and security across the
- Device configurations will include security measures such as password policies, encryption, and necessary software installations to enable Employees to perform their job duties effectively.

Account Creation Standards:

- HR will initiate the account creation process by submitting an IT Helpdesk Case with all necessary Employee details, including full name, start date, job title, manager, required access permissions, any additional software or hardware requirements, personal cell, email, and shipping address.
- User accounts for new employees will be created following submission of an IT Helpdesk Case submitted by HR.
- Accounts will be provisioned with the necessary access rights and permissions based on the Employee's role and responsibilities.
- Password creation and security protocols will be implemented to ensure strong and secure access to company resources.

New Hire Orientation/Training:

- All New Employees will partake in New Hire IT Orientations conducted by the IT Department.
- The IT Department will conduct specific IT-related training sessions as part of the orientation program.
- IT Orientations will cover device usage guidelines, security best practices, and an overview of the software and tools used within the organization.
- Employees will also receive information about the IT Helpdesk and how to report any IT-related issues or concerns.
- During the IT Orientations, new hires will be introduced to the company's security awareness and phishing simulation platform, KnowBe4.

IT Support During Onboarding:

- The IT Department will provide dedicated support during the onboarding process to assist New Employees with any IT-related needs or questions.
- IT staff will be available to help with device setup, account access, and any technical troubleshooting during the initial onboarding period.
- IT support will ensure that new employees have a smooth and seamless experience with their devices and technology resources.

Compliance and Acceptance:

- All New Employees will be required to read, understand, and comply with the company's IT policies, including the device configuration/provisioning standards and account creation standards.
- Employees will sign an acknowledgment form confirming their understanding and acceptance of the IT policies and procedures.

Ongoing IT Training and Support:

- Employees will have access to the IT Helpdesk for any technical support or questions related to company devices, software, and systems.
- Regular communication and updates will be provided to employees about changes in IT policies, security measures, and technology resources.

Continuous Improvement:

- The onboarding policy will be periodically reviewed and updated to align with changing technologies, best practices, and company needs.
- Feedback from New Employees, their direct supervisor, and the HR Department will be considered to improve the effectiveness and efficiency of the onboarding process.
