

Employee Offboarding Policy:

Created 7/26/2023

Disabling User Accounts

1. HR will initiate the account termination process by submitting an IT Helpdesk Case with all necessary Employee details, including full name, last day and shutdown time, job title, hardware records, software terminations, personal cell, email, and shipping address, who their emails need to be forwarded to, if they kept the boxes for their equipment and the method of how they'd be returning equipment.
2. The IT staff will work closely with HR to ensure that the offboarding process is initiated promptly after the HR Termination meeting has concluded and the employee has officially departed.
3. Access to company-provided email accounts, cloud-based services, internal systems, and other company resources will be revoked upon the employee's departure.
4. IT will update the Terminated Employee Change - IT Helpdesk Case with all services suspended, equipment assigned, retrieved and validated from the departed employee.
5. The IT department will follow a standardized process to disable the user accounts associated with the departing employee in a timely and secure manner, minimizing disruption to ongoing projects and ensuring the security of sensitive information.

Remotely Disabling Company/BYOD Devices

1. For company-provided devices, such as laptops, mobile phones, and tablets, the IT department will remotely disable access from the devices upon the employee's departure.
2. For BYOD devices that were authorized for work purposes, the IT department will provide clear instructions to the departing employee on removing work-related data and accounts from their personal devices.
 - a.  IT - Removing Work-Related Data and Accounts fro...
 - b. Upon Account Suspension/Deletion all approved applications will be rendered unusable

 - i. Click on Settings > Passwords & Accounts
 - ii. Click on Work

- iii. Click on Remove work profile
- iv. Click on Delete

Account Removal and Archiving

1. The IT department will ensure that all data associated with the departing employee's accounts are permanently deleted within 30 days of termination.
2. IT staff will collaborate with the employee's manager to transfer ownership of ongoing projects, files, and data associated with the departing employee.

Compliance with Company Policies and Legal Requirements

1. The offboarding process will adhere to all applicable company policies, legal requirements, and data protection regulations to safeguard sensitive information.
2. The IT department will work closely with HR to ensure compliance with privacy and data retention policies.

Communication and Collaboration

1. The IT department will maintain open communication and collaboration with HR and the employee's manager during the offboarding process to ensure a seamless transition for the departing employee and the organization.
